**Gerstlauer has introduced a bold new generation of Wooden Roller Coaster Trains!**

**Employing the latest engineering technologies, these German-made trains are manufactured in strict conformity to stringent German DIN 4112 standards.**

**Designed for maximum reliability and flexibility, the new Gerstlauer trains can be used on any wooden roller coaster. The look and theme of these trains are fully customizable and are the ideal choice for new installations or for upgrading existing wooden coaster systems.**

**For over 15 years, Gerstlauer has been designing and manufacturing the highest quality amusement rides and equipment. As a TÜV Bayern approved facility, Gerstlauer continues to lead the industry in craftsmanship, safety, and reliability.**
